

FOR SALE

2016 Chevrolet Spark EV LT2

Odometer: 50,700 kms

Original EPA range: 132 km. No perceived degradation. Full charge estimated range varies from 100km (winter with cabin heat blasting) to 160 km in summer with gentle city driving (<70 kmph). Actual normal range from my driving experience: 120-140 kms, with no perceptible change from 2016.

Charging: CCS at 50 kW ("level 3"), 10% to 80% in 15 mins, full charge in 35 mins; **240V J1772 at 3.3 kW** ("level 2") - **20 km per hour**, full charge in 7 hrs; included **120V OEM charger** ("level 1"), 8 or 12 Amps, **4-7 kms/hour** or full charge in 18 hours.

Nokia Hakkapeliitta front tires (2 yrs, 12,000 kms), original **Brookstone Ecotopia rear tires** with plenty of tread left. All tires regularly treated with UV/anti-oxidation rubber protectant (303)

New OEM wipers, all three bought from Dueck GM on July 16th 2023

Other Specs: Front-wheel drive; 0-100 kmph: 7.2 seconds, 140 HP and 327 foot-pounds torque; 19.4 kWh Battery Pack, useable ~ 17 kWh; heated front seats; USB charger; leatherette seats in higher LLT2 trim; manufactured in Korea.

Minor body chips and dents, exterior vinyl trim on upper driver's door frame sagging on one side, driver's side door handle replaced in 2021.

ASKING: \$15,000 OBO. View or test drive in Vancouver (Mount Pleasant)
